

I believe that the FCC should leave the NJ Do Not Call system alone.
It means just that - DO NOT CALL!

You may want to implement a second level of calling restriction with the provisions that "they have conducted business with during the last 18 months"

The FCC can certainly add this as a third option with out breaking the "Call Level Restriction" system.

- * Anyone can call any time
- * Only having done business with in 18 mo.
- * DO NOT CALL!

Power to the People!
